California Tsunami Preparedness Week, 03/27/17 to 03/31/17

During California's Tsunami Preparedness Week, Cal OES along with local, state, and federal partners promote tsunami safety and awareness and urge coastal residents and visitors to prepare themselves and their families for a tsunami.

Cal OES COASTAL REGION

- See 2017 Statewide Winter Storms Slides

Cal OES INLAND REGION

Train Derailment , Stockton, San Joaquin County, Spill 17-2490 (New/Final)

On 03/31/17 at 1254 hours the California State Warning Center (CSWC) was notified by Union Pacific Railroad (UPRR) of an upright derailment involving a locomotive and 3 empty railcars in Stockton Railyard, one of which was a refrigerator railcar.

- The refrigerator railcar fuel tank released 385 gallons of diesel onto the ballast and to the railyard soil only.
- There were no injuries and no waterways were affected.
- UPRR investigators were on scene and a contractor was performing mitigation at the time of the report.
- The CSWC made notification per SOP.

- See 2017 Statewide Winter Storms Slides

Cal OES SOUTHERN REGION

Severe Wind Storm Event, Southern California (New/Final)

On 03/31/17 the California State Warning Center (CSWC) was advised by the Cal OES Southern Duty Officer (SDO) that an intense overnight severe wind storm event affected many of the Operational Areas (OA's) in the Cal OES Southern Region.

- The Cal OES SDO polled the OA's for reportable damages or emergency management issues and no significant impacts were reported.

- See 2017 Statewide Winter Storms Slides

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

Oroville Dam Auxiliary Spillway Incident

- Flow from the flood control spillway will be reduced from 40,000 cubic feet per second to zero.
- As flows are reduced, DWR will monitor the status of the dam, spillways, and related structures to ensure their continued safety and stability.
- Flow to the Feather River will be reduced gradually to minimize risk to downstream levees per the Army Corps of Engineers operational requirements.
- This flow reduction in the river will be buffered by the Hyatt Powerplant, Diversion Pool, Thermalito Forebay, and the Thermalito Afterbay to a final flow of 13,000 cubic feet per second.

Per the DWR Flood Operations Center and California Data Exchange Center (CDEC) [as of 03/31/17 at 1800 hours](#):

- Inflow: [16,812](#) cfs.
- Outflow: [12,136](#) cfs.
- The current lake elevation is [840.18](#) feet.

Mission Tasking

- 2017-SOC-33363: Road Repair (Butte County) – On Scene.
- 2017-SOC-34379: Caltrans engineer to visually inspect and conduct Impact-Echo Testing on the gated concrete spillway floor – On Scene
- 2017-CalOES-34685: Asbestos Monitor (Butte County) – Coordinating.
- 2017-SOC-31712: 2 Structural Engineers for evaluation of the Oroville Spillway Bridge (Butte County) – On Scene.

SITUATION SUMMARY

2017 February Winter Storms

Cal OES Coastal Region

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge.

- With the bridge removed, the community of Big Sur is isolated, an estimated 450 people, in 3 different areas/enclaves.
- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- The southern detour route is open to local traffic only as of 03/13/17.

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Sutter Counties: Sacramento River at Tisdale Weir
- Sutter & Yolo Counties: Sacramento River at Fremont Weir
- Yolo County: Yolo Bypass at Lisbon
- San Joaquin County: San Joaquin River at Vernalis
- Stanislaus County: Tuolumne River at Modesto, San Joaquin River at Newman
- Merced County: Merced River at Stevinson

WEATHER OF CONCERN

Weather of Concern

- A high pressure system will slowly build over Southern California this weekend creating warmer weather and few clouds.
- **Active Weather Warnings, Watches and Advisories by County:**
http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php - Temporarily unavailable. NWS is in the process of repairing the page.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

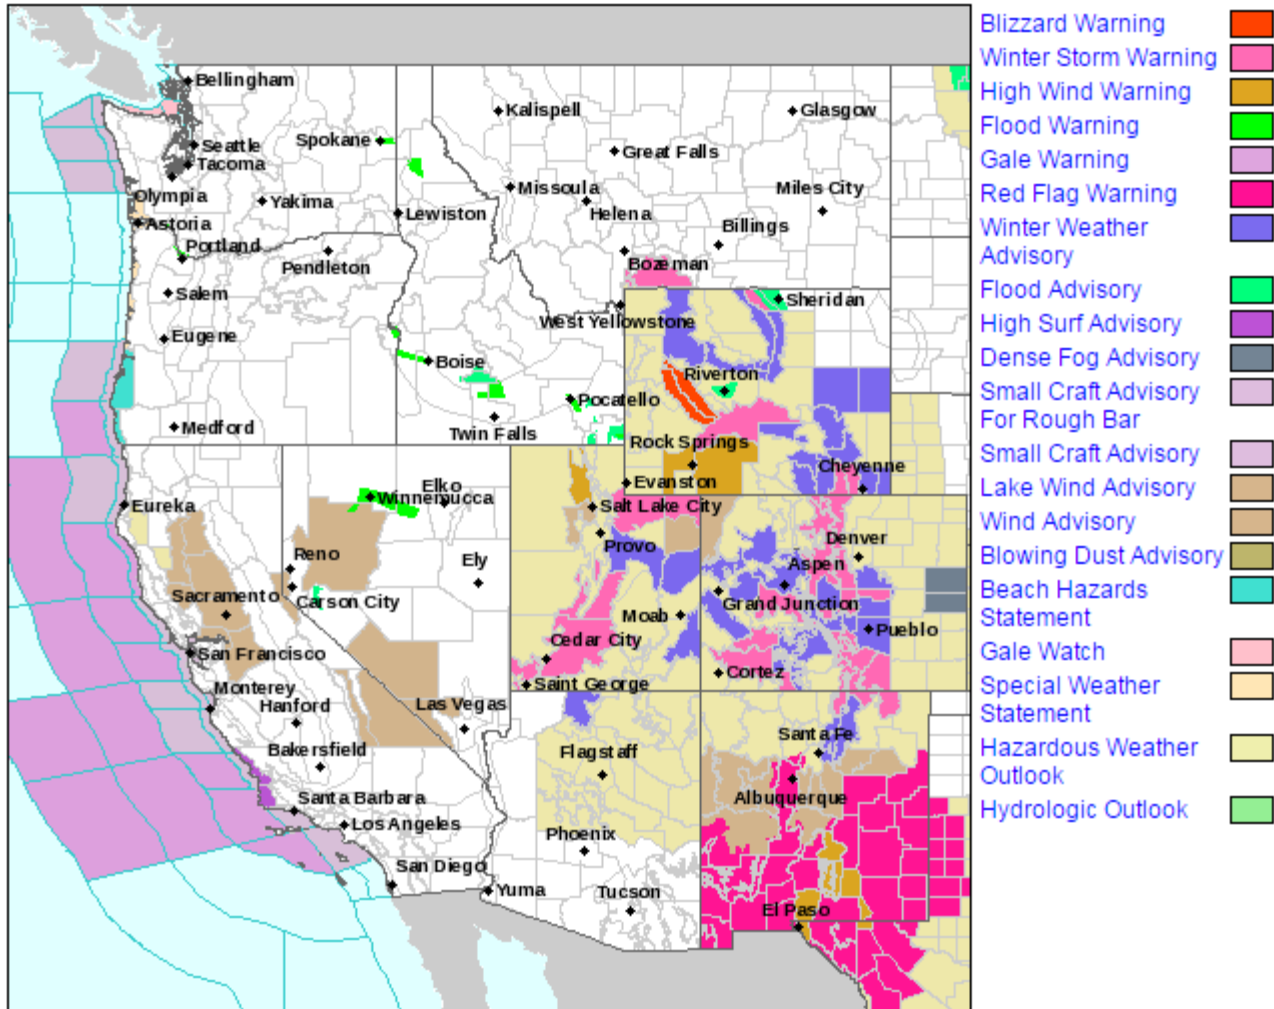

Gusty north winds will continue through this evening. High pressure will bring a mainly nice spring weekend to the region. Daytime highs should run from 10 to 15 degrees above normal. A weak weather system will flatten the ridge on Sunday bringing a slight threat of showers to the northern mountains and Sierra crest but otherwise dry warm weather will continue over the second half of the weekend.

SOUTHERN CALIFORNIA

An upper level low pressure area centered over northern Arizona will continue to generate strong northwesterly winds over much of the area today. Early this morning, northwest winds of 20-25 mph were occurring over the San Joaquin Valley southward through the I-5 Corridor into the Santa Clarita Valley. Some gusts to 60 mph can be expected in the northern section of the Angeles National Forest and other areas near the Grapevine this morning. Winds in these areas should taper off this afternoon. However, winds will likely increase across the Owens Valley, Inyo N.F. and the high desert later today where north winds of 20-35 mph with gusts to 50 mph can be expected. Temperatures will continue to be cool today with highs in the 60s to lower 70s in the valleys to the 40s and 50s in the mountains. The winds will turn lightly offshore tonight into Saturday, resulting in a 10 degree jump in temperatures outside the desert. Expect some valleys to reach 80 degrees over the weekend. Winds should be light after today, except for some north winds of 20-30 mph near the Colorado River each afternoon. A trough to our north will bring some cooling Monday and Tuesday before a strong ridge brings well above normal temperatures for the second half of next week. Some valleys will likely reach 90 degrees by next Wednesday or Thursday. No rain is expected during the next 7 days.
